

POOL AND SPA ENTRAPMENT HAZARD CHECKLIST

INSTRUCTIONS: Complete daily before the pool or spa is open for use as required by COMAR 10.17.01.28(1), before filling the pool or spa with water, after periodic maintenance, after pool cleaning, or filter cleaning. By checking the columns below, you acknowledge that each part of the table below that pertains to your pool has been checked and is in good working order. Any corrective action needed must be completed prior to daily pool opening. Maintain separate entrapment hazard checklist for each pool, spa and/or wading pool.
