- **Step Three:** Check the email you used for the activation code. Please click the activation code sent to your email.
- **Step Four:** Activate your account by entering your birthday, username, zip code and password.
- **Step Five:** Login to Lifepoint after successfully activating your account.
- **Step Six:** Once logged in, you can see your results.

What to do while waiting?

If you are sick or recently came into close contact with a known COVID case, stay at home while awaiting test results and self-isolate as much as possible. If you are getting a test only as a precaution, please continue to follow basic prevention measures such as social distancing, wearing a face covering while in indoor public places, and washing your hands frequently throughout the day

What to do if I test positive?

You should immediately self-quarantine at home. If symptoms worsen, contact your doctor or visit the Emergency Room. Call ahead of time to let the ER know you have COVID.

Self-quarantine lasts until 10 days after symptoms stop. Our isolation and quarantine team will monitor you and stay in touch while you are self-quarantining providing calls once a day.
